

I thoroughly enjoyed working with  
Stephanie Gray. She regularly displayed  
the characteristics of a future teacher.  
She worked very well with my students  
in a variety of ways - one-on-one, small  
group, teacher of a small group math  
lesson, teacher of a direct instruction  
reading lesson and assistant in large  
group math lessons.

She was on this, every time! She  
asked great questions and took each  
responsibility very seriously.

The children enjoyed working with  
her.
